

The Federal Election *and Beyond*

Workers, Communities and the Struggle for Jobs, Justice and Peace

You are invited to a community meeting with

Miguel Figueroa

Communist Party of Canada Leader and Candidate for Davenport

"Five years of misrule by Stephen Harper prove that a Tory majority would bring deeper involvement in U.S. Wars, inaction on the economic crisis and living standards, and on the global environment, as well as new attacks on Canadian sovereignty, and on democratic, labour and equality rights. We need policies for people's needs, not corporate greed. To win real economic and social development, and an independent foreign policy of peace and disarmament, dump the Tories and fight to achieve these goals!"

***Hear about the Communist Party election campaign and
share your views on how to defeat Harper
and press ahead with the fight to put people's need before corporate greed!***
